

E-Cycling Program

August 2, 2014

On **Saturday August 2nd**, bring your old electronic equipment to our **E-Cycling** event being held at **Town Parking Field L2 off Division Avenue in Levittown**, from **8 AM to 2 PM**.

All computers, computer components, televisions, VCRs and DVD players will be accepted for recycling at our [E-Cycling programs](#). By participating in e-cycling events, toxic materials, such as lead, mercury and arsenic are kept from entering the waste stream.

Pharmaceutical disposal and **paper record shredding services** will also be made available to residents. The safe disposal of unused medication and record shredding while you wait and watch will address areas of need at no additional cost to taxpayers. Open to Town of Hempstead residents only, no businesses or commercial vehicles permitted. For further information, please contact the Department of Sanitation at (516) 378-4210.
